## To Westfir City Council and township of westfir, in support of Trans Cascadias' development proposal plans.

As residents of Oakridge and business owners operating in Westfir, we are very much in support of the plans proposed for the expansion of their business! It will be a great opportunity for more employment as well as more organization to take care of our tourist that visit Westfir. We see a very big opportunity for this area to develop organically into an amazing destination for mountain bikers, families, students and locals as well! With a more solid infrastructure in place, it would provide a better experience for our locals as well as our visitors. We agree this is truly the the right group of folks to steward this amazing location/piece of land! We would also be able to expand our business in the future with the extra growth that would come along with this project. We know Nick and Jessie have the communities best interest in mind and are more than willing to develop this space in a responsible manner. Thanks you for listening to our thoughts and for considering everyone else's comments, we look forward to hearing the outcome!

Sincerely,

Ryan Pearse and Diana Alcantara
