City of Westfir  
P.O. Box 296  
Westfir, Oregon 97472

To whom it may concern,

This letter is regarding the proposed campsite development of 47359 Westoak Road.

We have many concerns regarding this development and the impact it will have on our neighborhood.

1: Water usage: There should be a completed analyses to determine the capacity of Westfirs existing water system.

2: Lighting: It is important the the lights be designed to not have any impact on the existing residences.

3: Campfires: Smoke is an issue that will affect the air quality.

4: Septic system: With standing water being an issue it is essential to the successful function of the septic system that this should be researched in depth.

5: Noise: Currently, when there are biking events at the Portal and they use a loud speaker we cannot enjoy using our front porch. We see that plans include a stage and the future use of loud speakers is of great concern.

6: Dog run: How will barking issues be addressed and it should be located as far away from the town as possible.

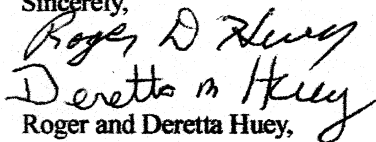

7: Policing: Who will be responsible for responding to any incidents and will there be 24hr coverage.

8: Traffic: Has there been an impact research done on the increased traffic in the town.

As you can see there are many issues that concern us, and probably more will arise. One reason we chose to live in Westfir is the peace and quiet. It is our understanding that most of the City Counselors reside in Hemlock and this will have no direct affect on their quality of living. We understand that these concerns will be presented to the Planning Commission.

Thank you for your attention in these matters.

Sincerely,

  
Roger and Deretta Huey,
