

Dear Planning Commission,

My husband and I would like to express our discontent with the proposed idea of the Trans Cascade RV Park in our city limits. We moved here 6 months ago after falling in love with the quaint, quiet forest town that is close to all our outdoor passions.

We feel adding this park would detract from the quality of life Westfir provides for us. We also love to camp but there are already plenty of campgrounds within the forest that don't impede on Westfir citizens. It is absurd to us to place a campground within city limits when we are surrounded by national forest. This serves no purpose to the city of Westfir. Only wear and tear to this sacred land and water that we call home.

We do not want this park!
