

To;
The city of Westfir.

My name is Derry Cunningham and I live at 47370 1st Street with my fiancée Peggy. We moved to Westfir in August 2017.

We met Nick & Jessie Gibson in 2019. They began their Mountain Biking Excursions on a small scale by renting the "Log scale shack" from Bob Newland. I've worked for Nick off and on for the past three years doing carpenter work and driving there shuttle vans. I've found Nick & Jessie to be very fair and honest.

As their business started growing they began to allow people to camp. With our home bordering their property on two sides it's been our experience that we have never had an issue with noise or traffic.

We support the Gibson's effort to establish their Seasonal business. I believe they are the perfect match for this Community. This will create an opportunity for revenue and awareness of what Westfir has to offer the general public.

In closing, I believe we should support Transcascadia and their efforts to establish a mountain biking business with hopes to show how positive this will be for our community.
